+1 (514) 961-5549

OBJECTIVE

Seeking a position where I can leverage my end-to-end web development experience, alongside my creative problem-solving skills and ability to collaborate with cross-functional teams. I am always experimenting, always learning, and never bored.

FEATURED PROJECTS

Pizza N Go | jQuery, Node.js, Express, JS, EJS, SCSS

[SOURCE CODE](#) | [LIVE SITE](#)

A food ordering app with two versions; one for customers and one for administrators. This app allows customers to create a personal profile, easily select food items and receive status notifications through text. The admin platform features order management and status communication.

Playlister | Vue.js, Firebase, JS, HTML, CSS

[SOURCE CODE](#)

A website where you can create, edit, delete and view playlists. Users are asked to login or sign up for an account. This gives them access to an online library of playlists created by the user or fellow Playlisters.

Wi-know | HTML, SCSS, JS, jQuery

[SOURCE CODE](#) | [LIVE SITE](#)

A flash card game to test your wine knowledge. The game includes questions from 5 different wine regions that amateurs can choose from. Wine-know has a simple, modern and clean interface in order to enhance the user's experience, topped with interactive animations to really make the website pop.

PROFESSIONAL HISTORY

Crew Cafe & Collective | Barista Manager

DEC 2018 - JUN 2021 | MONTRÉAL, QC

- Hired, trained, and coached 20+ staff members on customer service skills, food & beverage knowledge, and health & safety standards at a high-quality, fast-paced cafe
- Collaborated with the Food and Beverage Director to organize public events, manage supplier relationships and create seasonal menus
- Acted as a representative during coffee competitions (judging + competing), conferences, professional events and led coffee master-classes for clients
- Implemented and coordinated equipment maintenance systems throughout the cafe
